Education

UC San Diego Sept 2016 – Aug 2020

B.S. Cognitive Science (Design & Interaction)

UC San Diego Extension - Front End Development Certification

Experience

Mission: Cure

UX Designer July 2021 - Present

Adapted a barebones desktop platform to an iOS & Android app with increased functionality, such as notetaking, to provide enhanced support for pancreatitis patients in advocating for their care.

Dexcom

Product Design Intern Jan 2020 – Aug 2020

Focused primarily on the Dexcom Follow app. Conducted user research, designed new user flows & interactions, and tested prototypes for a reimagined Follow app.

The Design Lab - UCSD

UX Research Assistant March 2019 – June 2019

Conducted research and interviews to identify and address how vehicle automation & use of micro-mobility will affect how mobility disadvantaged users use and interact with future transit modalities.

Hyundai

UX Research Assistant Oct 2018 – March 2019

Involved in projects regarding micro-mobility & Robotaxis. Collected data from user interviews, ethnographic studies, and observations, which were synthesized for prototype AV passenger experiences.
