EDUCATION

UC San Diego 2016 – 2020

B.S. Cognitive Science (Design & Interaction)

UC San Diego Extension - Front End Development Certification

EXPERIENCE

DDI + Dexcom

Product Design Intern Jan 2020 – Sept 2020

Collaborated with Dexcom designers as part of UCSD Design Lab's DDI (Diabetes Design Initiative) to improve the Dexcom Follow app.

Conducted user research + testing and developed prototypes of redesigned Follow app which were positively received by Dexcom stakeholders.

Automation Playground

UX Research Intern March 2019 – June 2019

Researched and conducted activities to identify and potentially address how vehicle automation and use of micro-mobility will affect how mobility disadvantaged users use and interact with these transit modalities.

Hyundai

UX Design Intern Oct 2018 – March 2019

Involved in two projects for Hyundai regarding micro-mobility + Robotaxi. Collected data from user interviews, ethnographic studies, and observational data which was synthesized for proposing solutions to Hyundai and prototyping AV passenger experience.
