Education

UC San Diego 2016 – 2020

B.S. Cognitive Science (Design & Interaction)

UC San Diego Extension - Front End Development Certification

Experience

Mission: Cure

UX Designer July 2021 - Present

Designing, testing, and developing an iOS & Android app to assist pancreatitis patients through user engagement, personalized newsfeed, and plans for care management.

Dexcom

Product Design Intern Jan 2020 – Aug 2020

Worked with Dexcom designers, as part of DDI (Diabetes Design Initiative) team, on the Dexcom Follow mobile app. Conducted user research, developed, & tested prototypes of a redesigned Follow app and new features.

Automation Playground

UX Research Assistant March 2019 – June 2019

As part of the UCSD Design Lab, researched and conducted studies to identify and prototype how mobility disadvantaged users will utilize and interact with autonomous vehicles & micro-mobility transit modalities.

Hyundai

UX Research Assistant Oct 2018 – March 2019

Involved in projects regarding micro-mobility + autonomous taxis. Collected and synthesized data from user interviews, ethnographic studies, & observational data to prototype AV passenger interactions and experiences.
